Profile Summary

Data Analyst with **2+ years** of experience delivering data-driven insights and dashboards using **Power BI, Tableau, and AWS QuickSight**. Skilled in **SQL and end-to-end analytics**, from **ETL pipelines** to business-ready solutions. Experienced with global teams, translating complex data into decision-ready insights, **improving reporting efficiency by 30%**.

Skills

- **Business Intelligence and visualization:** AWS QuickSuite, Power BI, Tableau, Looker, Dashboard Development, Dashboard storytelling.
- **Data & Analytics:** SQL (Advanced Queries), Data Analysis, Data Cleaning, Data Transformation, Business Intelligence Reporting, Data Extraction, Data Blending.
- **Cloud & Data Platforms:** AWS (Redshift, S3, Athena), Microsoft Fabric, Google Cloud Platform, DataBricks, Microsoft Excel, Microsoft PowerPoint.
- **Data Engineering:** ETL Pipelines, Data Warehousing, Data Pipelines, Data Integration, Data Modelling.

Work Experience

Data Analyst | Wavicle Data Solutions | May 2025 - Current

- Developed 50+ enterprise BI dashboards using **Power BI, Tableau, AWS QuickSight, and Looker** for marketing, finance, and operations analytics across **multiple global clients**.
- Built **ETL pipelines and optimized data models** using Amazon Redshift, and Azure Data Factory.
- Analyzed datasets to identify trends and improve **sales visibility and inventory planning**, contributing to better decision-making.
- Wrote **complex SQL queries (joins, procedures, triggers)** for data extraction and reporting.
- Delivered BI solutions for clients including **RaceTrac and AWS**, supporting data-driven decision-making

Client Projects

Amazon CPS - Dashboard Migration (Tableau to QuickSight)

- Migrated **30+ enterprise BI dashboards** from **Tableau to AWS QuickSight, re-engineering datasets, calculated fields, and SQL logic** to ensure KPI consistency, data accuracy, and improved dashboard performance and usability.

RaceTrac - Migration (DataBricks to SQL Server)

- Migrated data pipelines from Azure Databricks to SQL Server, designing **ETL workflows and performing data validation** to ensure seamless integration, data integrity, and optimized processing efficiency.

Certification

- **Databricks** - Data Analyst Associate, Data Engineer Associate
- **Microsoft** - Fabric Data Engineer Associate

Education

Aug 2022 - May 2025

Bachelor Of Science | Computer Systems and Design | PSG College of Technology | Coimbatore, Tamil Nadu

- CGPA: 7.85 / 10
- Developed a **final-year IoT** project integrating **SQL-based data storage and real-time data processing**, which received **positive recognition from external evaluators** for its practical implementation and database design.

Leadership and Activities

- Organized and coordinated a college event with **400+ participants, managing logistics, team coordination, and execution**.
